About me

Hi 🙋 I'm a digital product designer with 4+ years experience in designing user-centric products and creating & maintaining design systems. I have expertise in user research, information architecture, wireframing, prototyping and UI motion. Mastering tools like Figma & Adobe After Effects. I have experience working in cross-functional teams on every stage of the product life - from concept through product launch to maintenance and improvements. Collaborating closely with stakeholders and engineers to ensure the high quality of implementation from start to finish.

Skills

- ✓ Teamwork and communication
- ✓ Specialize in Design Systems
- ✓ Meticulous attention to detail
- ✓ Experience in User testing
- ✓ Learning new skills with passion
- ✓ Adapting to constant change

Experience

Product Designer

Netguru | 2020 - Currently

- Conducting research & user testing.
- Preparing ideation sketches, wireframes, high fidelity polished user experiences and user interfaces for Mobile and Web platforms.
- Preparing high standard design documentation for developers.
- Recording async video updates to guide stakeholders through deliverables & explain all design decisions.
- Creating from the grounds up a custom Design System & maintaining it.
- Collaborating with engineers, product managers and outside stakeholders.
- Mentoring junior designers & reviewing design work.
- Creating UI design animations for better dev motion implementation.

Tools

Figma Expert level

After effects Proficient level

Loom

Confluence
